

We've Solved The Case.

ATAN TAKES THE MYSTERY OUT OF FINDING A SUITABLE BAG, CASE OR PACK FOR VALUABLE 35MM PHOTOGRAPHIC SYSTEMS AND EQUIPMENT.

The design and manufacture of a first class camera bag requires skills that cannot be acquired overnight. Materials, finish, craftsmanship and an unforgiving quality control program are the backbone of consistent excellence. ATAN camera bags and lens cases are the newest members of the world-renowned HINE/SNOWBRIDGE-KIRTLAND/TOURPAK family of tough, durable, designed for use packs and bags. Over a quarter million backpacks and bicycle packs have provided a test bed for the application of nylon fabric and hardware technology to the exacting demands of the amateur and professional photographer.

almost unbelievable resistance to punctures, wear and damage from heat, moisture or abrasion. Seams are crafted with a 3-ply 100% nylon bonded thread. This reliable thread is even stronger than the fabric it binds together. ATAN bags and cases provide a nearly lint-free internal environment for equipment and accessories. Tough, light-colored taffeta lining gives quick

PERFECTION THROUGH RESEARCH.

Studying patterns of equipment use by amateur and professional photographers was the critical first step in research and development. Three generations of prototypes were tested, modified, abused and redesigned until the ATAN design team was sure sizes and types were correct, and all of the functions responded automatically to the demands of the user.

visual access, and is smooth surfaced so nothing snags going in or coming out. The taffeta material on lens cases with drawstring tops has been waterproofed.

OUR HARDWARE MAKES GOOD SOFTWARE.

ATAN utilizes state-of-the-art Delrin® engineering plastic along with triple-plated buckles, D rings and cinches to produce foolproof and ultra-durable hardware. Toughness and strength are delivered at every stress point of every ATAN case and bag. Self-repairing coil zippers and rugged nylon webbing straps with generous shoulder pads ensure maximum carrying comfort.

LIGHT AND MIGHTY.

Maximum performance with minimum weight. This engineering axiom has been conscientiously applied to ATAN bags and cases. Additional ounces should be accounted for by the contents, not the bag.

THE CASE FOR PROTECTION.

Every design decision was considered to optimize protection for that precision instrument, the 35mm camera and lens. ATAN uses SuperDense™ closed cell, high impact absorbing foam placed strategically throughout the bag. Superdense foam diminishes the bumps and shocks with a minimum of bulk. Cordura® nylon is water resistant in anything short of a down-pour or immersion, and will protect equipment in drizzle or heavy fog.

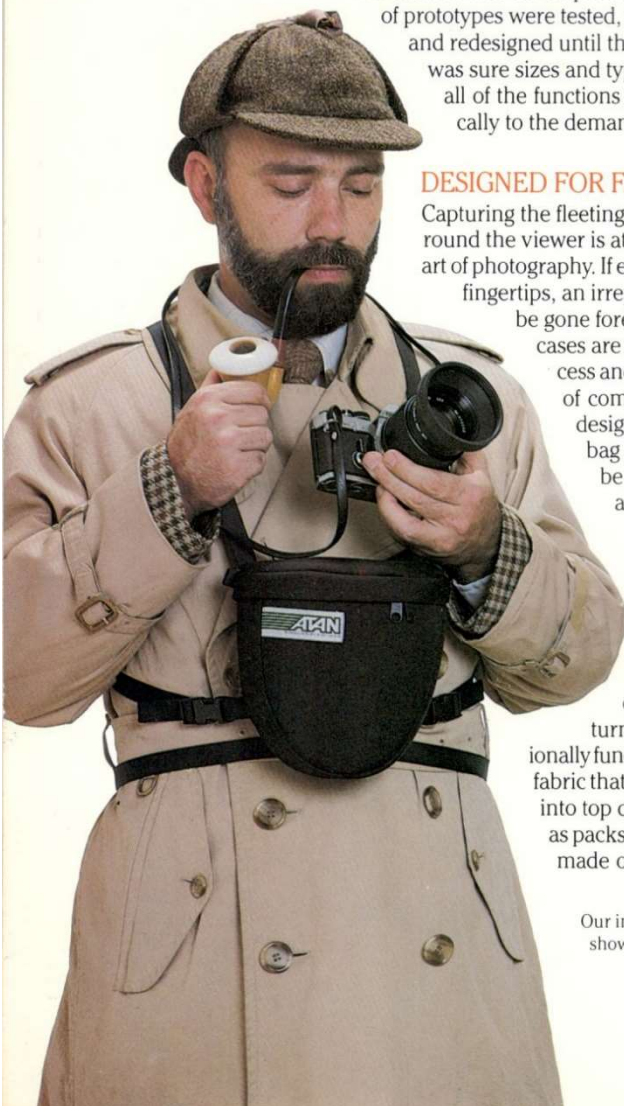

DESIGNED FOR FAST ACCESS.

Capturing the fleeting occurrences that surround the viewer is at the very heart of the art of photography. If equipment isn't at the fingertips, an irreplaceable image may be gone forever. ATAN bags and cases are designed for rapid access and smooth interchange of components. ATAN designers believe that the bag or lens case must be a fast and willing assistant.

TOUGH, INSIDE AND OUT.

Cordura® nylon fabric was originally designed as a tire cord material. It also turned out to be an exceptionally functional and attractive fabric that assembles beautifully into top quality soft goods such as packs and bags. ATAN bags made of Cordura® have an

Our intrepid photographer is shown with the A35 Action Pack.

EVERY CASE IS A SPECIAL CASE.

The ATAN interior partitioning system provides the photographer with a vocabulary of moveable and removeable Velcro® attached partitions. The interior of each ATAN bag is fitted out by the user to suit the dimensional requirements of the equipment. ATAN's custom fit capability is perhaps the best insurance against damage from jostling and rubbing. The quantity and mix of accessories and equipment for each ATAN bag can only be estimated, due to the variations in size and shape of the specific equipment. We have indicated possible combinations for each case and bag for use as a guide only. All camera bag and pack notations are outside dimensions (L x W x H). Lens cases give inside dimensions (Diameter x Height). A visit to your local ATAN dealer with your equipment is recommended for the best fit.

S55

SHOULDER BAG

This large (14" x 8" x 10") bag with a two zipper opening is carried over the shoulder. It can store 3 or more camera bodies and up to 9 lenses along with winders, flashes, filters and film.

A 3/4" optional belt is available to help stabilize the shoulder bags when rugged terrain is anticipated.

S15

SHOULDER BAG

Our shoulder bag measuring 12" x 4" x 8" features a zipper opening and can hold one camera body, up to 3 lenses, a winder or a flash, and up to 10 rolls of film.

S35

SHOULDER BAG

Two camera bodies, 4 or more lenses, winders, flashes and film can be conveniently stored in this 12" x 6" x 8" shoulder bag.

S35

S45

SHOULDER BAG

This versatile top flap opening shoulder bag measures 12½" x 6½" x 8". It can hold 2 or more camera bodies, up to 8 lenses (or fewer lenses and more accessories), and carries lots of film.

A 3/4" optional belt is available to help stabilize the shoulder bags when rugged terrain is anticipated.

L15

LENS CASE*

With a height of 3" and a diameter of 3 5/8", this lens case is our smallest. It zips open, and is perfectly suited for a single normal lens.

L35

LENS CASE

Carrying 1 or more lenses, this 3 5/8"(D) x 5"(H) lens case opens with a zip.

L55

LENS CASE

This lens case holds one or more lenses. Measures 3 5/8"(D) x 7"(H).

L75

LENS CASE

The largest of our zip opening lens cases, this one will carry 1 or more lenses and measures 4"(D) x 9 1/2"(H).

*On all lens cases dimensions shown are interior dimensions.

L25

LENS CASE

Our smallest drawstring lens case measures 3 5/8" in diameter and 4" in height. It's designed to carry 1 lens.

L45

LENS CASE

Medium-sized drawstring lens case can hold 1 or more lenses and measures 3 5/8" (D) x 6"(H).

L65

LENS CASE

This versatile lens pack has room for 1 or more lenses, opens by cord, and measures 3 5/8"(D) x 8"(H).

L85

LENS CASE

Our widest and tallest drawstring lens case (4"[D] x 10 1/4"[H]) carries one or more lenses.

A 3/4" optional shoulder strap is available for carrying ease to complement the lens cases.

Foam spacers included with lens cases.

W35

WAIST PACK

Medium-sized waist pack measures 16" x 4" x 7½" and has been designed to hold one camera body, 2 to 4 lenses, winder, flash and filters.

W55

WAIST PACK

Measuring 18" x 6" x 7½", our large waist pack can accommodate 2 camera bodies, 2 to 6 lenses, winders or flashes, and filters.
